Demographic Summary Contents

GUIDE TO CARRIER ROUTES

In this table, identify which streets (or sections of streets) are included in each carrier route.

DEMOGRAPHIC OVERVIEW

Get a snapshot demographic profile of each carrier route. These are listed in numerical order by zip code and carrier route(s) you want to target. Information for each carrier route includes number of households, number of businesses, median household income, median age, percentage of households with children, median home value, male/female ratio, and ratio of owner versus renter occupied housing.

ANNUAL HOUSEHOLD INCOME

Organized in descending order by annual household income, this table lets you know which neighborhoods bring in the most income. A full range of income distributions are given, so you can find the neighborhoods with the highest percentage of household in the desired range.

AGE DISTRIBUTION

Arranged in zip code/carrier route order, these pages show the age distribution of the residents in each neighborhood, from 3 to 5 years of age to 75 and over.

DISTRIBUTION OF HOME VALUES

Information is organized in descending order by median home value, and shows the percentage of homes in each neighborhood over a particular value.

HOUSEHOLD & FAMILY STRUCTURE

Arranged in zip code/carrier route order, these pages show the average number of people in each household. Percentages are given for households containing a single resident or married couples, with and without children. You will also be able to identify the percentage of residents in SFDU's (traditional houses) versus MFDU's (apartments, nursing homes, etc.). This and other important family and household information is included in this table.

SFDU = single family dwelling unit
MFDU = multiple family dwelling unit

How To Use The Demographic Summary For Sales Prospecting

"How can I find my best potential customers?"

If you're looking for the best neighborhoods around...

1. Establish the profile of your most likely sales prospect, and search for neighborhoods that match the profile most closely in the Demographic overview section.

2. Turn to the "Guide to Carrier Routes" of the Demographic Summary to find out what streets are covered in those carrier routes.

3. Use the Street Guide to find names, addresses and phone numbers of residents in these areas. Now generate increased sales from your direct mail or telephone campaign!

~~ OR ~~

If you're looking to select from neighborhoods nearest you...

1. Identify neighborhoods in your area by locating nearby streets in the Street Guide and learning the corresponding carrier routes.

2. Find out which carrier routes have the best potential by checking neighborhood demographics in the Demographic overview tables.

3. Use the Street Guide to find names, addresses and phone numbers of residents in these neighborhoods for your direct mail or telephone selling effort!
